SKILLS

SALES

- B2B Industrial Sales
- RFQ Management
- Technical Proposal Preparation
- Estimation & Costing
- Technical Consultation
- Account Management
- Negotiation & Closing

TECHNICAL

- Material Handling Equipment
- Pumps, Motors & Generators
- Fabrication & Heavy Structures
- Wear Solutions (SSAB Hardox)
- PVF & Industrial Consumables
- Heavy Vehicles & Attachments
- MRO Solutions
- ASME, API, ISO Standards

CAD & Engineering

- SolidWorks, Creo, AutoCAD
- ANSYS, MATLAB
- GD&T, BOM, BOQ
- RCA, STA, DFMEA
- P&ID, PFD Interpretation

MANAGEMENT

- Adaptability & Learning Agility
- Time & Resource Management
- Project Coordination
- Stakeholder Management

OFFICE & Business Tools

- Microsoft Office, Excel
- AWS, QBKs, CRM, ERP

EDUCATION

National University of Science & Technology (NUST) Pakistan

Bachelor of Engineering
(Mechanical Engineering)

Sep 2019 – June 2023

LANGUAGES

English
Arabic

PROFESSIONAL SUMMARY

Mechanical Engineer specializing in technical sales, proposal engineering, and industrial solutions for mining, cement, railways, recycling, oil & gas, and manufacturing industries. Experienced in B2B sales, RFQ management, technical proposals, customer relationship management, and engineered wear solutions.

EXPERIENCE

Bin Shehab- Ultametallic | Technical Sales Engineer | Riyadh, KSA Nov 2024 – Present

- Developed industrial customer networks across mining, cement, recycling, and manufacturing sectors, generating new business opportunities through technical consultations and solution-based selling.
- Managed SAR fabrication packages for CAF railway projects, coordinating engineering, fabrication, site activities, and safety requirements while reducing delivery delays by 15%.
- Prepared & negotiated technical proposals for industrial expansion projects for major clients including Ma'aden & Zujaj, contributing to large-scale system upgrades & sales growth.
- Supplied engineered wear solutions and fabricated equipment, including crushers, screens, chutes, bucket elevators, attachments, kilns, hoppers, silos, and tanks, for cement, mining, and aggregate plants, increasing repeat business by 20%.
- Facilitated ERP implementation, improving RFQ tracking, quotation management, and re-quotation efficiency by 30%.
- Performed failure analysis & recommended designs and welding solutions, extending equipment life & reducing maintenance costs by 10% for CAF, Saveto, CHEC, CSSC, ARTIC, and Aramco.

Buhlmann Group-Trupply | Technical Sales Engineer | HOUSTON TX, USA Feb 2023 – Sep 2024

- Directed back-office operations using AWS, QuickBooks, Outlook & Teams, streamlined RFQ process, reducing response time by 50%.
- Gathered technical details, managed customer terms & vendor lists.
- Managed quotation and sourcing of industrial pumps, valves, motors, piping, instrumentation, and rotating equipment while providing equivalent tech solutions.
- Coordinated with Global OEM suppliers, including Xylem, Grundfos, ITT, Flowserve, Hufco, Danfoss, Oteco, Parker & DeWalt.
- Consistently exceeded sales and gross margin targets through effective sourcing, pricing, and customer relationship management.

FREELANCE

DESCON Consultants | Technical Proposal Engineer | Islamabad, Pakistan Jan 2022 – Dec 2022

- Designed 3D design of scale models using SolidWorks & CorelDRAW, facilitating sales presentations and enhancing project marketing by 25%.
- Optimized DFM on frame, reducing BOM costs by 35% and enabling cost-effective integration into project drawings.
- Enhanced DFA by implementing self-fastening design features, increasing stability and reducing adhesive requirements.
